

For Immediate Release:

June 14, 2022

Chicago South, Lombard and Melrose Park Driver Services Facilities Closed

Check ilsos.gov for further updates

The Chicago South Driver Services Facility is closed today due to extreme heat because the air conditioning unit is currently not functioning. The Lombard Driver Services Facility will be also closing at 2 p.m. due to air conditioning issues. In addition, the Melrose Park Driver Services Facility is currently closed due to a power outage caused by last night's storm.

- The Chicago South facility's air conditioning unit at 9901 S. Dr. Martin Luther King Jr. Dr. is unable to cool the building due to the extreme heat. The facility will be closed today, Wednesday, June 15, and Thursday, June 16, due to the heat.
- The Lombard facility's air conditioning unit at 837 S. Westmore-Meyers Rd., B27 is not adequately cooling the building, so the facility will be closing at 2 p.m. today.
- The Melrose Park facility, 1903 N. Mannheim Rd., is closed due to a power outage in the area following last night's storm. The facility will reopen once power is restored.

"We apologize to customers and thank them for their patience and understanding during this time," said Secretary of State Jesse White. "We appreciate the hard work and dedication of employees at these locations."

White advises the public to visit ilsos.gov to check the status of these facilities or to locate another facility.

White continues to encourage people to conduct business online at ilsos.gov. In addition to driver's license and ID card renewals for those who qualify, online services include obtaining a duplicate driver's license or ID card, ordering a driver record and purchasing license plate stickers.

As a reminder, White has extended all driver's license, learner's permits and ID card expiration dates to July 31, 2022. The extension does not apply to Commercial driver's licenses (CDL) and CDL learner's permits.
