Office of the Auditor General

Through the Illinois Constitution and the Illinois State Auditing Act, the Auditor General is vested with the responsibility of auditing and reviewing the receipt, obligation and use of all State of Illinois funds. As a principal agent of legislative oversight and public disclosure, the Auditor General conducts the Illinois Post Audit Program, which strengthens control over government activity by providing accountability to the people of Illinois and their elected representatives. The Illinois Constitution, the State Auditing Act and the Post Audit Program provide a system to help ensure that the General Assembly, which appropriates funds and sets program and policy goals, has the means to review expenditures and results.
